PROFESSIONAL SUMMARY

Dynamic Researcher with proven experience: enhancing forecasting methods through advanced data analysis and critical thinking. Excelled in synthesizing complex information, leveraging Python for impactful visualizations, and fostering team collaboration. Achieved significant improvements in data collection efficiency, demonstrating a keen attention to detail and a robust problem-solving aptitude.

WORK HISTORY

Dubravskii Consulting - Researcher

Moscow

09/2024 - 03/2025

- Conducted thorough research and literature reviews to identify gaps in knowledge for the **forecasting methods** of Presidential elections of the US.
- Gathered and organized information for **regression models**.
- Synthesized large volumes of information, identifying key trends and patterns relevant for **prediction markets**.
- Utilized statistical packages to analyze data and create **visualizations in Python**.
- Improved data collection efficiency using innovative survey tools for **Delphi method**.
- Collaborated with interdisciplinary teams to conduct comprehensive studies and generate valuable insights.

The Entente Foundation - Co-Founder

Moscow

10/2024 - Current

- Developed and managed the project's **economic analysis** stream, creating **analytical reports and market overviews** to guide strategic decisions.
- Initiated partnerships with external researchers, expanding the platform's author pool and fostering **interdisciplinary collaboration**.
- Explored** opportunities for integrating the project's activities with **Web 3.0** ecosystems, identifying potential collaborations and **innovative growth paths**.
- Provided** strategic recommendations on the project's long-term development, focusing on **sustainable scaling, content diversification, and technological adaptation**.

EDUCATION

Expected in 07/2025

State Academic University For Humanities (RAS)

Moscow

Bachelor of Arts: American Studies

- Graduate paper: **"The US public policy in regulating cryptocurrencies and blockchain technologies"**, 2025
- Completed University-level Coursework: Global economy, **"Grey areas in modern international relations: an economic aspect"**, 2024
- Completed University-level Coursework: International relations, **"U.S.-South African relations during the Cold War: the apartheid factor"**, 2023
- Completed University-level Coursework: **"World history, "Reconstruction of the South: causes and results"**, 2022

SKILLS

Critical thinking

Data analysis

Attention to detail

Team collaboration

Works Well Under Pressure

Scientific writing

Solution quality assurance

Digital research tools

ADDITIONAL INFORMATION

• Web 3.0 & Cryptocurrency Experience

I have hands-on experience with both DEX and CEX platforms, actively interacting with various blockchain networks and DeFi protocols. My passion for Web 3.0 drives me to continuously explore new tools, follow emerging trends, and deepen my understanding of decentralized ecosystems.

• "The Entente Foundation"

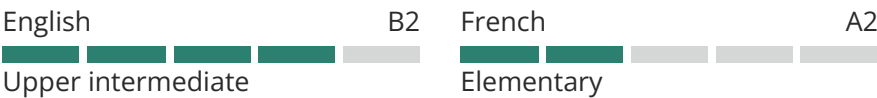

The future "think tank" that conducts non-profit research on the American politics, the U.S. economy, French political heritage, Russian history and culture.

FINTECH EXPERIENCE

I have actively immersed myself in the **Web 3.0** and cryptocurrency space, gaining hands-on experience with both **DEX** and **CEX platforms**, trading, and navigating various blockchain networks like Ethereum and others. My involvement in **DeFi** includes **staking, yield farming, liquidity provision, and governance**, deepening my understanding of tokenomics, smart contracts, and dApps. I stay engaged with industry trends, continuously exploring new protocols and emerging technologies to expand my expertise in this evolving ecosystem.
