PROFESSIONAL SUMMARY

Dynamic Researcher with proven experience: enhancing forecasting methods through advanced data analysis and critical thinking. Excelled in synthesizing complex information, leveraging Python for impactful visualizations, and fostering team collaboration. Achieved significant improvements in data collection efficiency, demonstrating a keen attention to detail and a robust problem-solving aptitude.

WORK HISTORY

Dubravskii Consulting - Researcher

Moscow
09/2024 - 04/2025

- Conducted thorough research and literature reviews to identify gaps in knowledge for the **forecasting methods** of Presidential elections of the US.
- Gathered and organized information for **regression models**.
- Synthesized large volumes of information, identifying key trends and patterns relevant for **prediction markets**.
- Utilized statistical packages to analyze data and create **visualizations in Python**.
- Improved data collection efficiency using innovative survey tools for **Delphi method**.
- Collaborated with interdisciplinary teams to conduct comprehensive studies and generate valuable insights.

ADDITIONAL INFORMATION

Web 3.0 & Cryptocurrency Experience

I have hands-on experience with both DEX and CEX platforms, actively interacting with various blockchain networks and DeFi protocols. My passion for Web 3.0 drives me to continuously explore new tools, follow emerging trends, and deepen my understanding of decentralized ecosystems.
